

DOOR GLASS & HARDWARE

## About Us

---

Door Com Products is a division of Wintek Industries Inc. During the past 15 years, Door Com Products has become the pre-eminent supplier of components for the manufacture of pre-hung doors in the fenestration industry. We have been able to show our pre-hanger customers the benefits of dealing with a 'just-in-time supplier' who has a fully stocked distribution facility.

Door Com Products has today developed an unsurpassed reputation as a leader in the fenestration industry, and continues to be a pioneer in developing new products & services. The key to Door Com Product's success has been our ability to understand the needs of our customers and to thereby introduce innovative and necessary products to the industry.

Door Com Products focuses on providing supply chain excellence for all our customers and the markets we serve. Our global contacts in the purchase of raw materials has been beneficial in giving our customers consistent, quality products, on time and at competitive prices. Our goal is to achieve operational excellence in all aspects of procurement, manufacturing, supply, and customer order fulfillment. We do this through the use of new technologies, a dedicated and talented workforce, and a commitment to the principles of continuous improvement. Door Com Products continuously strives to offer innovative, quality products at a level of service excellence unsurpassed in our industry.

## Design Excellence

---

Following our philosophy of only supplying the highest quality products, we have developed with selected partners, a range of decorative glass that is not only visually stunning but technically leads the market. The products in this catalogue are designed to suit multiple tastes and budgets ranging from the more traditional ranges of the New Orleans and Chicago Ave to the European inspired designs of the Retro and Tahoe.

## Industry Leading Performance

---

Glass is the key aesthetic in any door system and great doors need great glass. With our latest collection of decorative and textures we have not only developed a range that looks great it also performs great. All our glass is manufactured into insulated glass units that make use of the latest glazing technologies with Low E glass, Warm Edge Spacer systems and are filled with Argon gas to ensure the best thermal efficiency.

## New Orleans

The complex bevelled design combined with stunning textured glass creates a design with undoubted curb appeal and 'Wow Factor'. New Orleans combines the opulence and architecturally inspired design flair associated with the 'Big Easy' and is undoubtedly set to become one of our most popular designs.

# Inox Glazing Collection

---

Our new Inox Stainless Steel glazing collection is a combination of European style with Canadian performance and craftsmanship. This unique flush fit glazing system uses high quality, 316 grade stainless steel frames combined with 1 ½", super-efficient, triple glazed insulated glass units to create a contemporary look that was previously only available with high-end specialist aluminum door systems.

The range incorporates multiple glazing configurations combined with beautifully designed decorative and textured glass options. With the use of only coastal grade 316 grade stainless steel the frames are guaranteed to keep their high shine and stunning good looks for years to come.

# PVC Frames

---

All our PVC glazing frames are manufactured in Canada and are designed to with-stand the demands of the Canadian weather with excellent heat and cold resistance. All our PVC frames are designed for simple deglazing while maintaining maximum security and come with a cover strip to hide the screws.

## PVC Contemporary

---

A smooth frame with a low profile squared design to suit most contemporary door styles and can easily be painted to match your door colour.

## PVC Traditional

---

A smooth PVC frame design with a sculptured profile design, ideal for use with more traditional door styles and can easily be painted to match your door colour.

## PVC Traditional Woodgrain

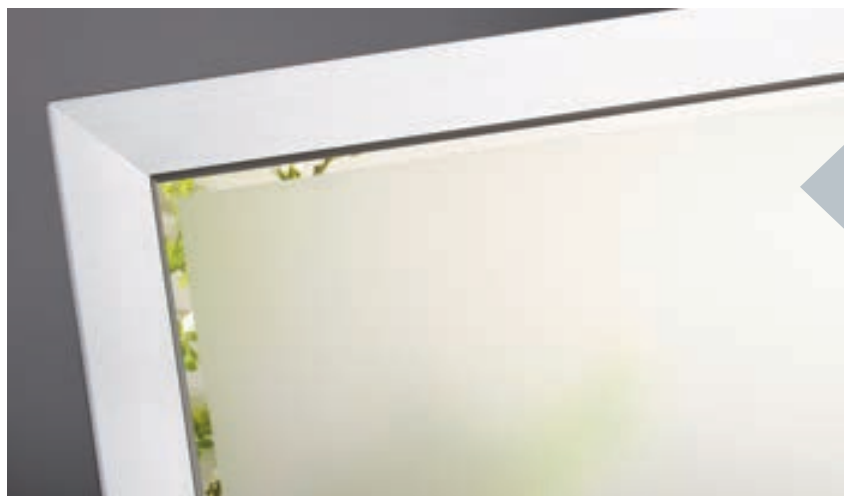

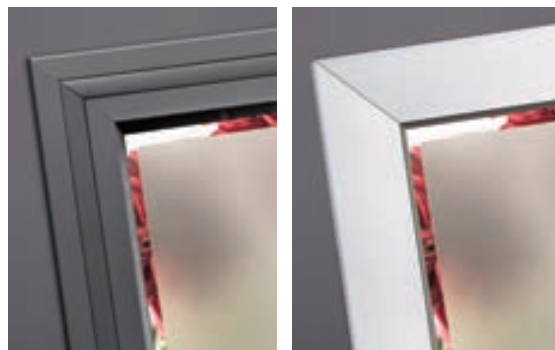

---

A more traditional PVC frame design with a woodgrain effect, grained sculptured profile. Ideal for use with stained fibreglass or wood doors.

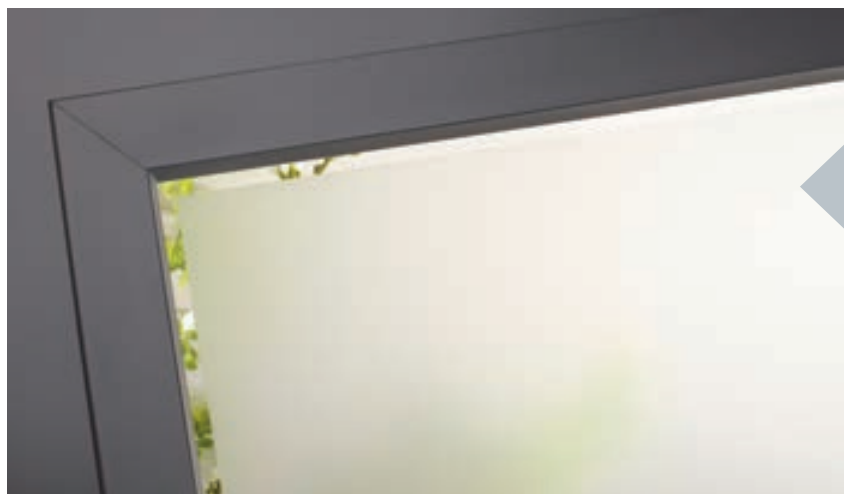

# Edge Aluminum Frames

Our latest frame option manufactured from a hybrid of aluminum and PVC, offers contemporary aesthetics with un-paralleled thermal and security performance. The Edge frame is a unique 3-part system with an external ultra-slim aluminum frame and an internal PVC clad with aluminium. We can also offer the Edge system with a PVC Contemporary interior frame.

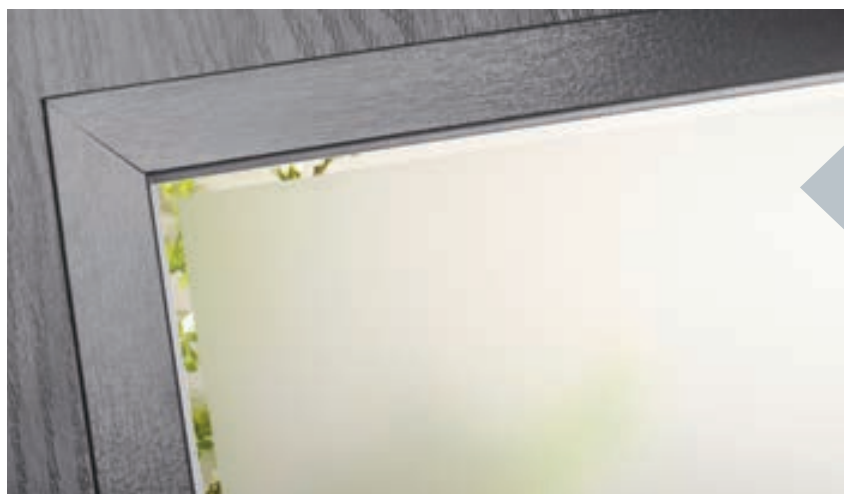

## Edge Anodized

The anodized finish offers an eye-catching contrast against the colour of the door and creates a truly contemporary look. The anodized finish has been rigorously tested to AAMA 907-12 for long term performance.

## Edge Smooth White

Our standard finish is a white powder-coated surface which can be painted to match the colour of the door.

## Edge Woodgrain

The Edge Woodgrain finish comes with a textured fine woodgrain effect surface that is ideal for use with woodgrain stained doors to create a stunning contemporary look.
